

Sarthak Kamble

Frontend Engineer

Mumbai, India | sarthakkamble412@gmail.com | +91-9619222098 | linkedin.com/in/sarthak-kamble | github.com/Sarthak-Kamble

Summary

Frontend Engineer with 3+ years of experience delivering high-performance SaaS web applications using React.js, TypeScript, and Next.js. Proven ability to architect reusable component systems, optimize API performance, and ship production features end-to-end in fast-paced Agile environments.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, TanStack Query, TailwindCSS, Framer Motion, HTML5, CSS3

Backend & APIs: Node.js, Express.js, REST APIs, MongoDB, PostgreSQL, Drizzle ORM

Tools & Practices: Git, GitHub, Docker, Postman, ESLint, Agile/Scrum, CI/CD

Concepts: Web Performance Optimization, State Management, SEO, Accessibility (WCAG), System Design

Experience

Infidigit Consultants

Mumbai, IN

Software Development Engineer I – Frontend

Jan 2024 – Present

- Directed a team of **4 engineers** to architect and ship the **Email Alerts module**; introduced a modular component system that cut new-feature development time by **40%**.
- Spearheaded end-to-end React frontend development of the **LLM-powered SEO Content Studio**; implemented long polling for real-time generation feedback, proposed token reduction strategies adopted by the backend team achieving **~30% reduction in token usage**, and delivered **2 production releases** within Agile sprint cycles.
- Migrated payment infrastructure from Razorpay to **Stripe** across **8 production versions** to enable international payments; replaced Embedded Checkout with a **custom Stripe API checkout UI**, improving conversion rates, UX, and brand consistency.
- Slashed network requests by **35%** by introducing TanStack Query (React Query) for server-state caching and request deduplication; further cut load times via list virtualization and migrating static assets to a **CDN**.
- Launched the **Infigrowth SEO Chrome Extension** to **1,000+ active users**, built with vanilla JavaScript and DOM APIs — zero frameworks — achieving high performance with a minimal footprint.

Atos

Mumbai, IN

Associate Consultant – Full Stack Engineer

Sep 2022 – Aug 2023

- Contributed across the full SDLC — from UI design to REST API integration — building React, Java, and Spring Boot prototypes within a cross-functional **8-member Agile team**, accelerating delivery cycles.
- Translated Figma designs into **WCAG-compliant**, pixel-perfect React components with consistent cross-browser rendering, reducing UI defect rates during QA review cycles.

Projects

Infigrowth – SEO SaaS Platform

infigrowth.com

- Production SEO SaaS platform built with **Vite + React**, TanStack Query (React Query), Redux Toolkit, and TailwindCSS; architected a modular frontend structure spanning multiple feature modules with a focus on maintainability.
- Crafted data-rich dashboards and analytics views using **Apex Charts** and Semcore Intergalactic, with a polished UI via **Emotion CSS**, Ant Design (antd), and Framer Motion.

DevTree – Full-Stack Developer Portfolio Platform

github.com/Sarthak-Kamble/devtree

- Designed and deployed a full-stack platform using **Next.js (App Router, SSR)**, Node.js, and MongoDB; implemented JWT authentication, server actions, and an analytics dashboard backed by optimized aggregation queries.
- Achieved a **Lighthouse performance score of 90+** with a mobile-first, accessible UI built using TailwindCSS and Framer Motion.

Education

Sinhgad Institute of Technology

Sep 2019 – May 2022

B.E. in Information Technology

CGPA: **8.9 / 10**

Coursework: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, Software Engineering, Information Security, Web Technologies
